## MESSAGE FROM MANAGING DIRECTOR

It's my pleasure & privilege to share few words with you about Silver Line Group.

In keeping pace with the policy of a free & open economy by the government of Bangladesh, we diversified our business over the years with a view to boost the financial strengths of the units of this group as well as contributing to the economic growth of the country.

The name Silver Line Group today stands for trust, confidence and reliability.

Today, we are committed to build up a world class working environment with green project status to enable highly efficient & smooth working of our composite textile and apparel units.

Continuously innovations through strong research & development have been our focus for supporting clients with their ever growing needs for improved quality & consistency.

We are committed for social responsibilities for the employees, society & environment by taking necessary endeavours in the field of medical & health care, safety, cleaner environment, training & upgrading the quality of life for people associated with and around us.

Our vision is to keep our customers as our core partners and our mission is to fulfill their needs effectively.

Our focus is to have consistent growth in the direction of business excellence and growth in people's quality of life.

The untiring efforts of the dedicated staff members & workforce of the group have been the key factor behind holding high the flag of Silverline Group.

Wishing you all the best!

M.A.H. SALIM

MANAGING DIRECTOR,

SILVER LINE GROUP

# SILVER COMPOSITE TEXTILE MILLS LTD

## VISION

Becoming world leader in textile & apparel conglomerate in terms of sustained quality, innovative product range, quicker lead time & efficient services keeping the customers as our core partners.

## Mission

Silver Composite Textile Mills Ltd has a mission to achieve excellence in production & delivery of high consistent quality textile products like Yarns, Fabrics & Apparels with innovative value additions in each stage and remain globally competitive through implementation of effective mechanisms of high operational efficiencies.

Our main focus is to fulfill our vision keeping our valuable customers as our core partners for the fulfillment of their needs & thereby growing together towards serving our stakeholders effectively.

Our focus also remains towards social & environmental commitments to have green project status.

## ABOUT US:

Bangladesh, the country of apparels & textile manufacturing has been progressively growing in capacities for meeting the global requirements of textile & apparels at a considerable rate.

The idea of excelling in becoming a preferred supplier for yarns for the ever increasing knitting industry globally came to the mind of our Honorable Managing Director, Mr. M.A.H. Salim in the year 2002 when the quality yarn suppliers were not many in Bangladesh.

He had transformed this idea into the formation of a very sophisticated & state of the art spinning unit in the name of Silverline Composite Textile Mills Ltd .at Monipur, Near Mirzapur, Gazipur, 35 kms from Dhaka Airport.

The Spinning unit started its production in the year of 2004.

Since then it has been a success story in delivering high quality 100% Cotton Yarns for export oriented knit fabrics & apparel units.

Our Managing Director has taken a visionary leap forward in the year 2013 to vertically integrate into fabric & garment manufacturing & become world leader in manufacturing fine quality shirting's & bottoms with innovative value additions at each stage of manufacturing.

Taking the advantage of the fuel economy & ease in the availability of skilled manpower locally , the management has decided to add latest state of the art technology & know how with multinational team of working professionals for expediting the vision of becoming a preferred supplier of fabrics & apparels of high end quality .

The formation of the composite textile unit was done in the year 2013 by the name of *Silver Composite Textile Mills Ltd* in an area covering approx. 70 acres of land.

The unit is designed to produce value added shirting fabrics & bottom weight fabrics for high end use apparels.

Extending further to the fashion needs, a large state of the art apparel unit has been formed in the year 2013 to cater to the needs of fashion conscious buyers across the globe.

The apparel unit has been started initially for the top wear garments especially high end dress shirts & extended further for casual shirts & bottom wear.

The quest for excellence in services & capacity expansions for meeting global needs & competitiveness is as fresh & dynamic as ever.

## BRIEF PROFILE: COMPANY INTRODUCTION

SilverLine Group had started initially with Knit Yarn manufacturing in the form of a Spinning Mill named Silverline Composite Textile Mills Ltd. with 38700 spindles and producing 22 tons /day of hosiery yarns since 2004 with varying counts viz. 20/1,24/1,26/1.28/1,30/1, 32/1,34/1,40/1Ne with latest machineries from Trutzschler, Toyota, Marzoli & Amsler etc.

The textile group has vertically integrated into Yarn Dyeing, Weaving , Continuous Dyeing & Finishing and Garment manufacturing with state of the art machineries having latest technology globally available for higher efficiencies, sustained quality , improvised energy savings .

The Company has been founded & started by Honorable Managing Director , Mr. M.A. H. Salim who is the constant source of inspiration & has been a stern leader for creating an outstanding team of professionals . Under his stewardship, the company is progressively moving towards innovative excellence in serving our customers most effectively.

The company has a highly talented multinational team of professional experts in all departments of manufacturing, product development, marketing & merchandising for serving the customers in the fastest possible lead time, led by CEO, Mr. Raashid Ashraf Khan.

The Silver group is capable of producing all types of fabrics with various compositions especially 100% Cotton, Cotton/Spandex & Cotton/Modal.

Our Product range include Yarn dyed fabrics, Solid Dyed fabrics & Printed fabrics in different constructions, weaves & finishes.

We produce exceptional combinational weaves with functional finishes in various compositions, weaves & dye techniques.

## **PRODUCT RANGE**

### **FABRIC**

1. Yarn Dyed
2. Solid Dyed
3. Prints

### **Weaves**

- Plains
- Combination Weaves
- Twills
- Satins
- Dobbys

### **Finishes**

- Regular Soft Finish
- Dual Coated Finish
- Hidrophilic/Wicking Finish
- Microsanded Finish
- Wrinkle resistant finish
- Oil & Water repellent finish
- Fire repellent finish
- Antibacterial finish
- Aroma finish

### **COMPOSITIONS**

- 100% COTTON
- COTTON/SPANDEX
- COTTON/MODAL

## GARMENTS PRODUCTS

- TOPS
- MENS
- LADIES
- KIDS
  - DRESS SHIRTS
  - CASUAL SHIRTS
  - KURTIS

## INFRASTRUCTURE:

### SPINNING

- Latest technology for high quality Ring Carded & Combed yarns in 100% cotton .
- Slub attachment on ring frames for value additions.
- Compact attachment on ring frames for producing compact weaving yarns for fine counts.
- Efficient contamination sensors for foreign fibers & colored particles form Trutzschler in the Blow room.
- Latest technology in auto leveling for carding from Trutzschler for least C.V % .

### TECHNOLOGY PROFILE:

PROCESS	TECHNOLOGY	COUNTRY
BLOW ROOM	TRUTZSCLER	GERMANY
CARDING	TRUTZSCHLER	GERMANY
DRAW FRAMES	TOYOTA	JAPAN
COMBERS	TOYOTA	JAPAN
ROVING FRAMES	HOYUAN	CHINA
RING FRAMES	MARZOLI	ITALY
AUTO CONERS	MURATEC	JAPAN
YARN HEAT SETTING	LG	SOUTH KOREA

## YARN DYEING

- Latest technology in Yarn dyeing with low liquor ratio & energy savings.
- Innovated systems from Fongs's new Allwin models with compact machine fittings.
- High dye leveling by incorporating efficient flexible dosing & circulation pumps .
- Microprocessor controlled dashboards for operation route tracking & controls.
- Capability of dyeing stretch yarns with high leveling.

## TECHNOLOGY PROFILE

PROCESS	TECHNOLOGY	COUNTRY
PRECISION SOFT WINDING	FADIS	ITALY
PACKAGE YARN DYEING	FONGS	CHINA
HYDROEXTRACTING	DETTIN	ITALY
RADIO FREQUENCY DRYER	FONGS	CHINA
HARD PACKAGE WINDING	FADIS	ITALY

## WEAVING

- State of the art high speed sectional warping & direct warping from Europe
- State of the art beam to beam sizing & creel to beam sizing from Europe.
- High ends creel capacity for higher efficiencies in warping.
- Microprocessor controlled dash board on warping & sizing machines.
- Highly innovated size cooking & Drying systems.
- Flexible stretch control system on sizing machine.
- High speed Airjet looms with 4 to 6 color weft insertions from Japan.
- 24 frame high speed dobby in Airjet technology from Japan.
- Cams, Cranks, E sheds & Dobbys & Seer suckers in Airjets .
- High speed reinforced 6 colour 24 frame rapier dobbys from Europe.

## TECHNOLOGY PROFILE

PROCESS	TECHNOLOGY	COUNTRY
SECTIONAL WARPING	KARL MAYER	GERMANY
DIRECT WARPING	KARL MAYER	GERMANY
SIZING	KARL MAYER	GERMANY
AIRJET WEAVING	TOYOTA (CRANK,CAM,E-SHED)	JAPAN
RAPIER WEAVING	PICANOL OPTIMAX	BELGIUM
AUTO LEASING	STAUBLI	GERMANY
AUTO KNOTTING	STAUBLI	GERMANY
TEXTILE CAD	PENELOPE	SPAIN
AUTO SAMPLE LOOM	CCI	TAIWAN

## FINISHING

- High end Singeing & Desizing with flexible burners & flexible temperatures in desize bath.
- Continuous solomatic scouring & bleaching systems with least water consumptions.
- Continuous mercerization with effective neutralization.
- State of the art Continuous dyeing range & wash range from Europe.
- State of the art patented finishing stenters for efficient heat setting, finishing with coating arrangements from Europe.
- State of the art shrinking unit from Europe.
- Efficient & flexible microsanding unit from Europe.

## TECHNOLOGY PROFILE

PROCESS	TECHNOLOGY	COUNTRY
SINGEING & DESIZING	OSTHOFF	GERMANY
CONTINUOUS BLEACHING	KYOTO	JAPAN
MERCERISATION	KYOTO	JAPAN
CONTINUOUS WASHING	BENNINGER	GERMANY
CONTINUOUS DYEING -PAD DRY	BRUCKNER	GERMANY

FINISHING-	MONFORTS & BRUCKNER	GERMANY
PRINTING	ZIMMER	GERMANY
SANFORISING	MONFORTS	GERMANY
MICROSANDING	XETMA	GERMANY

## GARMENT DIVISION

- Specially designed sewing machines for precise high end shirt manufacturing from Japan & Singapore.
- Automations for tension controls at sewing machines, fabric marking, pattern making, spreading ,fabric cutting, plotting, fusing, finishing & packing.
- Special sewing machines like placket cutting ,automatic collar trimming, turning & blocking ,collar forming press, collar counter trimmer, collar notcher, cuff forming & pocket creasing for high end dress & casual shirts.
- Special finishing machines like double head thread trimming m/c, thread sucking ,ccolset iron with steam, vaccum table with slip buck, spot cleaning ,needle detector, broken needle detector, upper lower conveyor belt system for men’s shirts.

## TECHNOLOGY PROFILE

## UTILITY & CONSTRUCTION INFRASTRUCTURE

- All the buildings are built with latest technology with humidification controls, air conditioning & environment friendly procedures for waste controls & recycling .
- Safety procedures like earthquake protection, wind shielding, rain water dissipation, return air & exhaust systems have been taken care of in all the operational buildings & infrastructure.
- Highly efficient gas run generators & boilers from Europe.
- Air conditioning & Humidification from Best Air.
- Highly compact arrangement for various pipelines for water, compressed air & steam.
- Canopies at all entry & exit points.

## TECHNOLOGY PROFILE

## COMPLIANCE/ETHICAL PRACTICES

We at Silver Line Group are committed to comply with all the social compliance & ethical practices at all our factories to maintain high level of health & safety measures ,enthusiastic work environment, hygienic facilities ,well lighted & ventilated work areas and above all satisfied customers & employees.

We strictly follow the local & international laws related to the compliance & ethical practices for textile & apparel industries.

Our continuous Endeavour of employee empowerment & health, education & training and environmental sustainability goes on ....

Our Medical facilities, safety procedures & devices especially fire & material handling , training & appraisal systems for employees , canteen & living facilities, hygiene at all work stations are under continuous improvement process for the delight of the people associated with the organization.

## CORPORATE SOCIAL RESPONSIBILITY

Silver Line Group is committed to its social responsibilities towards the employees, society & the nation as a whole.

The culture created in Silver Line Group is a friendly, co-operative , highly motivated & innovative one which fuels optimism & positivity at all levels of work place .

Silverline Group is taking all steps for the high level of motivation in the employees by providing ambient working conditions, encouragement to do self initiated innovations at the work place.

Health & Safety for the employees & the people associated are the prime focus in the organization at all units & work stations.

The ambient working conditions & safety precautionary measures taken at each work place & buildings of Silver Line Group create a culture of confidence, self pride & pro-activeness .

Eco friendliness & environmental impact of the manufacturing processes are effectively taken care by proper implementation of measures for use of natural light during day time at various work places, air exchange, water treatments before use, waste water disposals & reuse, recycling of some of the major alkalis used , use of environment friendly raw materials etc..

SilverLine is committed to follow the guidelines of the ISO for quality consistency, major compliance bodies for the ethical work stations & surroundings & environmental certification bodies viz. Oekotex & GOTS for our processing units .

SilverLine Group has adequate medical facilities for taking care of the health of the employees of the Garment & Textile Divisions by constructing hospitals & children care centers at both Garment & Textile Divisions.

Silver Line Group has been endeavoring for education for all children. With regards to it, Silver Line Group has started building local school & college for the children of the society nearer to the factory campus.

The ever increasing Endeavour for improvement & excellence in environmental protection, health, safety & welfare goes on ....
